

This flood hazard map identifies the approximate special flood hazard areas only and is not to be used when making a single site flood hazard assessment. A single site flood hazard determination can only arrived at by having a topographical survey done or by having an elevation certificate signed and sealed by a land surveyor authorized by law to certify elevation information.
If you have any questions concerning flooding determinations, please contact the Seminole County Planning & Development Department, Building Division at (407) 665 7335.

County Boundary
Parcel Lines
Water Features
FEMA Q3 Floodplain Data
