Facts About the Penny Tax for Sanford Area Voters

1991-2001: In addition to the construction of 70 miles of roadways, revenue from the Penny Tax from 1991 to 2001 was also used for construction of the recently completed SunRail project within Seminole County. The Penny Tax cannot be used for SunRail operations.

2001-2011: Approximately $140 million in grant funds were awarded to Seminole County because of the sales tax. That's the equivalent of another two and a half years of the Penny Tax.

"From 1991 to 2011, the Penny Tax provided the County Commission a funding source other than property taxes to pay for infrastructure improvements throughout the county. Out of 67 counties, Seminole County has the 14th lowest property tax rate in the state. Approval of the proposed Penny Tax will permit the County Commission to utilize sales tax, 20% of which is paid by visitors, instead of property taxes to fund the infrastructure needs at a level that our citizens have historically experienced."

- Commissioner Brenda Carey

"I encourage you to vote in this important Special Election on May 20th."

- Sheriff Don Eslinger
