

## Seminole County EMS/Fire/Rescue Planning Branch

The Seminole County EMS/Fire/Rescue, Planning & Resource Management, is responsible for the future of the Fire Department. The face of the fire service is constantly changing. Population booms, natural disasters and the possibility of terrorist incidents require planning to assure resources remain efficiently prepared. These factors combined new tactics in fire suppression and emergency medical response makes it imperative that every fire department plan for the future.

Primary responsibilities of the Planning & Resource Management, include Fire/EMS station location, statistical evaluation, technological advances, emergency medical services, firefighter wellness, and various aspects of both long and short range planning for the division. The section works closely with the other two divisions of the fire department, operations and administration.

Planning & Resource Management consists of the following components:

Professional Standards/Training

Logistics/Fleet

Information Technologies

The office is open Monday through Friday during business hours 8:00 am to 5:00 pm, (closed holidays).
