land. Assessments may be adjusted annually and confirmed by Board Resolution. The per unit Assessment in any given subsequent year is limited to a maximum increase of twenty percent (20%) over the prior year assessment. Any assessment increase above the twenty percent (20%) restriction in any give year must be supported by sixty-five percent (65%) of the assessed properties and documented via the MSBU Program petition process. Notice of proposed special assessment will be mailed annually to owners of assessed property. Said special assessments shall constitute a lien upon the lands assessed. Pending collection by the County of such special assessments, as provided herein, the County may spend from its Municipal Services Benefit Unit Fund such sums as may be necessary to operate, maintain and administer the MSBU hereby created, and the County will be reimbursed to such extent at such time assessments are collected.

LAKES BURKETT/MARTHA AQUATIC WEED CONTROL MSBU

Exhibit A

Service Scope and Estimate of Cost

The aquatic weed control improvements for Lakes Burkett/Martha may include chemical, mechanical, biological, and/or other activities typically associated with on-going maintenance efforts to monitor and control aquatic weed growth. The required treatments will vary annually with lake conditions and will necessitate variations in scheduling and assessment calculations based on nature of treatments required and cost factors.

The cost components typically considered in estimating aquatic weed control cost and preparing annual budgets include: contracted services, supplies and/or other items required in association with water body management efforts, standard administrative and tax collection fees, etc. Long-term financial management of the MSBU may also include provisions associated with short-term fund advancement, coordination of installment payments (principal) and financing (interest) and allocation for establishing and maintaining an operating contingency and/or reserve funds for future needs.

SEMINOLE COUNTY shall be responsible for funding 23% of the annual actual costs of the aquatic weed control management costs associated with the lake Burkett/Martha waterbody. SEMINOLE COUNTY shall be responsible for advancing ORANGE COUNTY the 23% of aquatic plant control necessary in said waterbody. Aquatic plant control may be accomplished by chemical (herbicide application), biological, mechanical means or combination of these alternatives. Actual cost is defined as the cost of (i) the chemicals necessary for herbicide application, (ii) cost of biological intervention (triploid grass carp stocking), and/or (iii) mechanical (harvesting, cutting and/or mowing) aquatic vegetation. The annual budgeted amount established by SEMINOLE COUNTY shall serve as the maximum amount of actual cost SEMINOLE COUNTY will be required to contribute towards aquatic plant control in the Lakes Burkett/Martha waterbody in any one fiscal year. The amount of work programmed for any one year and reflected by the actual costs shall be determined by the annual budgeted amount.

SEMINOLE COUNTY shall be responsible for (a) coordinating MSBU communication and assessment activities related to SEMINOLE COUNTY properties, (b) conducting an on-site lake evaluation of the Lakes Burkett/Martha waterbody at least once each fiscal a year, (c) participating at least once a year with ORANGE COUNTY in formulating annual lake management and budget plans for the Lakes Burkett/Martha waterbody, and (d) participating in public meetings scheduled to include owners of lakefront property on Lake Burkett.

Based on current lake conditions, treatment plan recommendations and cost projections for Lakes Burkett/Martha Lake, the cost estimate for managing the aquatic weeds is as follows:

The total estimated budget for the first full fiscal year [FY1112] of MSBU operation is as follows:

Contracted Services	\$11,429.00
Administration & tax collection	\$1,075.00
Contingency/reserve	<u>\$1,632.00</u>
Total Budgeted	<u>\$14,136.00</u>

The initial assessment for the Lakes Burkett/Martha Aquatic Weed Control MSBU is established as \$725.00 per benefit unit for waterfront parcels and \$8.00 for associated parcels for the common element Trinity Bay Homeowners Association parcel. All assessments for aquatic weed control subsequent to the initial assessment will vary according to changing site conditions, environmental factors, treatment recommendations and other uncertainties associated with aquatic weed control. The annual assessment for each subsequent year is subject to increase. The assessment for subsequent years is currently estimated at \$725.00 per benefit unit for waterfront parcels and \$8.00 for associated parcels.
