

EMERGENCY MANAGEMENT PLANNING CRITERIA FOR AMBULATORY SURGICAL CENTERS

The following criteria are to be used when developing Comprehensive Emergency Management Plans (CEMP) for all Ambulatory Surgical Centers. These criteria will be used as the approval guidelines for the county emergency management agencies, pursuant to Chapter 252, Florida Statutes. The criteria also serve as the suggested plan format for the CEMP, since they satisfy the basic emergency management plan requirements of s. 395.1055, Florida Statutes, and Chapter 59A-5, Florida Administrative Code.

These criteria are not intended to limit or exclude additional information that ambulatory surgical centers may decide to include to satisfy other requirements, or to address other arrangements that have been made for emergency preparedness. Any additional information, which is included in the plan, will not be subject to the specific review by the county emergency management personnel, although they may provide informational comments.

This form must be attached to your center's comprehensive emergency management plan upon submission for approval to the county emergency management agency for review. Use it as a cross reference to your plan, by listing the page number and paragraph where the criteria are located in your plan on the line to the left of each item. This will ensure accurate review of your center's plan by the county emergency management agency.

Criteria and upload portal is available on the Emergency Management website:
